To Whom it May Concern:

I have known and worked with Lisa Wong for since 2013. I am the founder and CEO of Veritruue Components, an ISO 9001 certified company located in San Clemente, California. We are a civilian contracting corporation supporting the DOD, DLA, Homeland Security, and various bases across the US. Lisa has played a key role in both the financial planning and management of our company.

Lisa consistently demonstrates a terrifically deep and well-rounded skill set to include; timely and professional bookkeeping, tax planning and preparation, corporate administrative compliance, financial consulting, and financial governance.

Lisa's integrity, positive demeanor, and professional approach to her work, give reason for my 100% recommendation. Please feel free to contact me as I am more than happy to discuss Lisa's qualifications in further detail.

Regards,

Kenneth D. Epstein  
Co-Founder and CEO
